Did you know?

- ENERGY STAR certified clothes washers use about 25% less energy and 40% less water than regular washers.
- Dishwashers that have earned the ENERGY STAR certification are, on average, 20% more energy efficient and 30% more water efficient than standard models.
- If all computers sold in the U.S. were ENERGY STAR certified, savings would equate to more than \$1 billion in annual energy costs per year.
