

SAMPLE

STEP BY STEP INSTRUCTIONS FOR DRAWING A RESIDENTIAL SITE PLAN

- Step #1 Your survey sketch will help you get started. Please use at least an 8-1/2" x 11" sheet of paper. Draw property boundaries and show North direction.
- Step #2 Show proposed construction (House, Garage, Barn, Well, and Septic system). Please show dimensions from front and side lot lines to house.
- Step #3 Show utilities and easements that are currently on your property (Electric, Phone, Gas, Drain and Cable).
- Step #4 Show any possible future construction and any existing features of your land (Creeks, Trees, Drive, Buildings).
- Step #5 If possible, please show any existing poles with dimensions that are either on your property or neighbors.

TYPICAL SITE PLAN
